

## **Seafarers guidance for novel Coronavirus(Covid-19) apart from WHO for Vessels calling in China port**

Seafarers awareness, preventive measures and surveillance to control Novel Coronavirus (Covid-19) for vessel calling in China port, please have a look the following observations apart from WHO guidance for CORONA virus.

- # Try to maintain accommodation temperature 27-28 degrees as maximum confirming 100% re-circulation, may use heating at A/C if cold region as virus could not survive in warm condition.
- # Ensure all entrances including Bridge/ER are kept in locked condition and also confirm gangway entrance door self closing is in working condition.
- # Be vigilant for any unauthorised entry of Chinese in accommodation except official purpose which should be limited as possible and not to entertain to beyond the ship office limit. Confirm cleaning/washing is to be done just after leaving Chinese official. All crews must ensure the proper protective dress as guided by WHO while customs, immigration and quarantine conducting.
- # Try to establish the communication with cargo supervisor via walkie-talkie instead direct taking if possible minimum mixing.
- # Don't leave the accommodation without duty hrs specially for network searching, possibly ships V-sat/satellite preferable.
- # Avoid gathering/ gossiping during tea/meals time, it is prudent to distribute duty re-schedule specially in port as practicable. Never try to use hand while eating.
- # Ensure Engine room blowers are running as minimum as possible.
